

FULL STACK PHP DEVELOPER

LARAVEL & REACTJS

ABOUT THE ROLE

We are looking for a Full Stack PHP developer who has experience with Laravel and ReactJS. Your primary focus will be growing and improving our current feature set within an agile environment. With your experience, you will advise the team and assist in the growth of our project with calculated decisions. We are looking for someone who is not only talented in creating new features but can develop and add functionality to our existing code base. Writing beautiful, documented, and efficient code is something you are passionate about, and you fit well within a team environment. A strong understanding of both backend and frontend technologies will be required.

RESPONSIBILITIES

- Build, Maintain, Refactor, and Create modules
- Creating new modules with both backend and user-facing elements
- Ability to deliver solutions to complex problems
- Deadline focused and able to provide quality solutions on time
- Ability to follow and improve on plans given by the team lead
- Apply your experience and wisdom to best help our growing product
- Proficient using the terminal
- Proficient with git

EXTREMELY NICE TO HAVE

- Experience with AngularJS
- Scrum master experience

NICE TO HAVES

- Experience within startup culture
- AWS Experience
- Laravel Vapor Experience
- SCADA Expertise
- SaaS product development Experience
- Experience developing Progressive Web Applications
- GPS Development Experience
- Development experience with a serverless architecture

EXPERIENCE IN THE OIL AND GAS INDUSTRY IS CONSIDERED AN ASSET, BUT NOT REQUIRED.
