PAYLOAD™

Manifest

Compliance and Control. Made Easy. Remain compliant in the transportation of goods from origin through to destination.

FORMS

- AER WASTE MANIFEST
- BC MOVEMENT
- TDG
- BILL OF LADING
- NON-REGULATED / NON-DOW
- FEDERAL MOVEMENT DOC

HOW DO YOU DO THAT?

WORKFLOW MANAGEMENT

- Built-in waste code, Consignor, Carrier, and Consignee details to reduce human error.
- Pre-built digital copies of recommended regulatory forms
- Built-in workflows.

EASY RECONCILIATION

- Real-time visibility into volumes delivered to Consignees and waste manifests status at any stage in the process
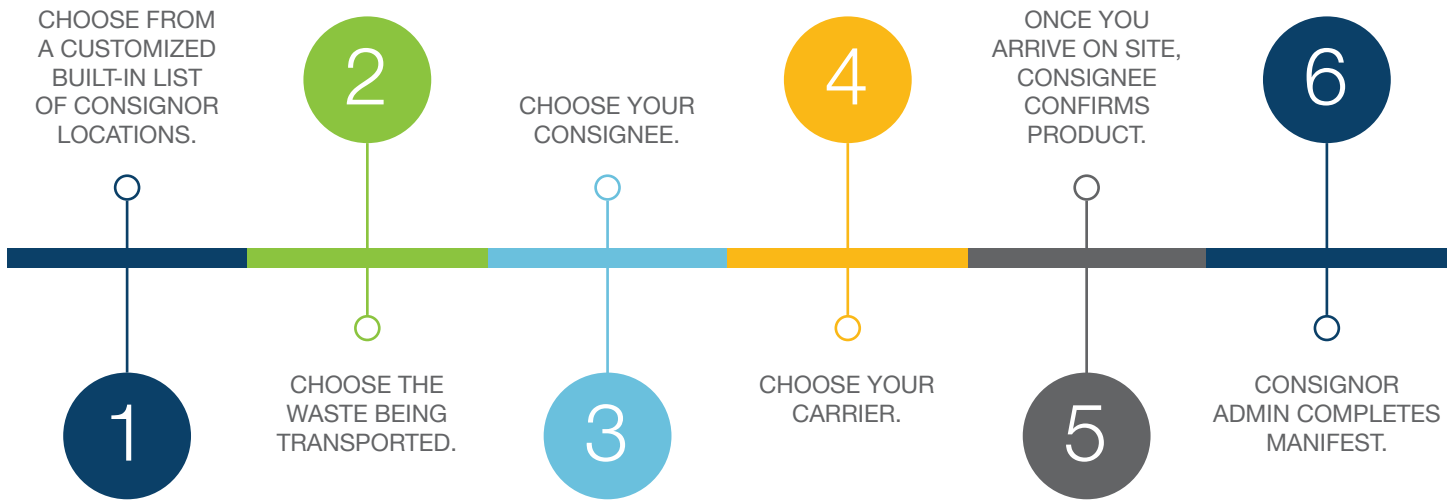

AUDITABLE REPORTING

- Digital repository of all documents and their status accessible at any time.
- Suite of reports designed to allow users at any level to keep tabs on operations and identify issues.

Payload is a logistics software platform that connects companies and service providers giving them the tools they need to optimize transportation activities and maintain regulatory compliance.

HERE'S HOW IT WORKS

1 CHOOSE FROM A CUSTOMIZED BUILT-IN LIST OF CONSIGNOR LOCATIONS.

2 CHOOSE THE WASTE BEING TRANSPORTED.

3 CHOOSE YOUR CONSIGNEE.

4 CHOOSE YOUR CARRIER.

5 ONCE YOU ARRIVE ON SITE, CONSIGNEE CONFIRMS PRODUCT.

6 CONSIGNOR ADMIN COMPLETES MANIFEST.

BENEFITS

STREAMLINED WORKFLOW

- Save time and money by quickly generating manifests.
- Dramatically reduce manual entry effort filling and distributing forms.
- Digital repository of all forms makes it simple to prepare for audits.
- Ability to clone existing forms to further reduce effort for regular shipments.

VISIBILITY & CONTROL

- No more product classification issues.
- Easy to reconcile volumes transported.
- User customizable back end, meaning form filling options are relevant to your operations.
- Quick access to key documents.

CORPORATE SUSTAINABILITY

- Helps maintain your Environmental, Safety and Governance commitments.
- Reduction of paper usage.
- Ensure accurate and consistent manifest documentation and classification across your organization.
